MICRO-MESH® REGULAR
GRADES 1500 THRU 12000

Ultra-Flex® cushioned abrasive on cloth backing. Logo and grit printed on cloth side. Available in pressure sensitive adhesive backing or loop backing. Adhesive backing comes with easy to peel release film. Loop material is made to be applied to hook faced back-up pads for an easy hook 'n loop closure. Non-hazardous. Made in the USA. Complete part geometry and coarse sanding to 400 wet/dry sandpaper prior to beginning the Micro-Mesh® series, beginning with 1500 Micro-Mesh®. Greatly reduces or eliminates buffing.

MICRO-MESH® AO
GRADES 300 AO THRU 12000 AO

Ultra-Flex® cushioned abrasive on cloth backing. Logo and grit printed on cloth side. Available in pressure sensitive adhesive backing or loop backing. Adhesive backing comes with easy to peel release film. Loop material is made to be applied to hook faced back-up pads for an easy hook 'n loop closure. Non-hazardous. Made in the USA. Complete part geometry and coarse sanding to 120 wet/dry sandpaper prior to beginning the Micro-Mesh® series, beginning with 300 AO Micro-Mesh®. Greatly reduces or eliminates buffing.

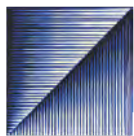

For Polishing

Solid Surface Countertops (Corian®)
Aluminum

TUF-BUF

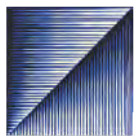

Natural Black Lambswool Polishing Pads

Premium shearling lambswool pads designed for clearcoat polishing. Our TufBufs are durable and well balanced to leave finishes with less haze and swirl than conventional pads. Pads shed less and have a dense pile up to 60,000 fibers per sq inch! This plush surface distributes compounds evenly and consistently. Available in a variety of sizes and 2 lengths of nap. Use the 3/4" for a more aggressive touch and the 1" for finishing. Made in the USA.

Use in conjunction with our liquid abrasives and/or polishing compounds.

FOAM FINISHING PADS AND FOAM SANDING BLOCKS

Finishing pads made with a specialized soft foam, with open cell design. Removes any swirl or haze left after buffing steps. The open cell design allows the foams surface to stay loaded with compound, making the buffing process more effective. Pads come with loop backing. Use on slow speed angle polisher or cordless drill.

Wrap sheets of Micro-Mesh™ around our ergonomic foam blocks to provide yourself a cushioned grip while sanding. Prevents uneven finishes. All blocks are 1" thick. Use our 3" x 3" block with a 3" x 6" sheets of Micro-Mesh™ for best results. and again. Made in the USA.

MICRO-GLOSS™ LIQUID ABRASIVES

Plastic
Wood
Metal

Waterbase formulation that contains an abrasive crystal. Use Type 1 as a daily cleaner and polish for aircraft transparencies and as a swirl remover and surface brightener. Buff in after using Micro-Mesh 12000 as a final step to add luster.

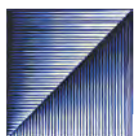

Micro-Gloss#5 is also a water base compound that contains a 5 micron aluminum oxide crystal and will remove fine scratches up to 9 microns in depth. Should be followed with Micro-gloss Type 1. Use by hand or for more aggressive results use with a slow speed rotary polisher and lambswool pad, followed by another application and a foam pad to remove any swirl. Dampen surfaces with water prior to using.

TAPES

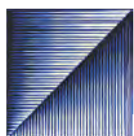

When engine manufacturers are expected to meet strict criteria and performance objectives, Micro-Mesh® is the proven choice for the job. Our Micro-Mesh® 600 MX is the preferred abrasive, achieving in most cases better surface roughness averages by 1 micro inch and improved bearing ratios up to 10 percent. If indexed properly, it can polish up to 4 cams/crankshafts more than competitive products! Tapes are 500 foot in length and are wound onto a keyed 5/16" core. 1 tape per unit.
